Reeser, of Springfield.

The accident happened when the train was approaching Sonora, western-bound, at about 10:15 p. m. Sonora is in Preble county, about midway between Davion, O., and Richmond, Ind. The station is a regular stopping place for the train, but last night there were no passengers to let off or take on, and Brakeman Mannigan stepped to the platform to signal the engineer with to the platform to signal the engineer with his lantern before he should begin to slack up, to go right on through. The train was running, at the time, about forty miles an hour, and was just passing under a bridge as the brakeman reached the platform. He leaned out by hanging on to the rail and swung his lantern high aloft to signal the engineer, just as the train darted under the bridge. In a twinkling the lantern had wrapped around the guard-rail of the bridge and fastened itself. Mannigan's hold on the lantern was firm and in an

JERKED WITH TERRIFFIC FORCE

Conductor Reeser was standing on the platform of the front passenger coach when the accident occurred, almost within reach of Mannigan, and a cry of horror escaped him as he saw the man disappear, and realized the character of the accident. Considering the speed of the train and other conditions, it looked as though Mannigan must have been killed or terribly injured. Reeser immediately pulled the bell-rope and stopped the train. A search was made for Mannigan—an unwilling search, as all dreaded what they expected to find. Much to their surprise and gratification, however, they found him sitting on the bank awaiting the return of the train. He was perfectly conscious, and although terribly bruised, had no broken bones. His escape from death is little less than a miracle. Mannigan says the experience was a frightful one—similar, he imagines, to being shot out of a gnn.

A Springfield Girl Selected

Among the five new teachers selected by the trustees of the Soldiers' and Sailors Orphans' home, at Xenia, is Miss Jessie Boggs, a well-known and greatly-esteemed young lady of this city. The position is one of responsibility and the selection of Miss Boggs is a decided compliment to her ability. She is herself a soldier's orphan, being a daughter of the late Captain Biddle Boggs, of this city—a brave soldier and for years chief of police of this city. Miss Boggs will assume her new duties in September.

As was announced in Wednesday's RE-public there will be a public meeting of the members at the G. A. R. headquarters tomorrow (Friday) evening for further action in the matter. The Board is in a way now to be piaced on a firm and prosperous basis; almost ready for active operations, and every member should endeavor to be present at the meeting tomorrow night to take part in the initiatory business and get things moving. There is plenty of work for the Broad to do, and plenty of time yet before people become too much absorbed in the political campaign. The election does not the time expected, and some are lost.

As well and influence in helping club. The birds were fourteen in number, each belonging to a different member of the club. The liberation was successfully performed by Assistant Chief Charles W. I did much better from that vicinity, making home at 7:04 Sunday morning, beating all Brooklyn. The New York club have ten birds home out of fourteen. Thanks for your kind offer to again officiate. I am requested by our club to send

of steamers to go down the bay and meet the 'Plumed Knight.'"

This is proper, from the fact that Mr. Blaine is America's greatest living representative, and his influence for the Harrison and Morton ticket will be exerted to its full, and will be more efficient than that of any other citizen. It is fitting that he be tendered a reception on his eturn such as indicated in the above special.

The Republic suggests that no city in the country contains any more ardent admirers of Mr. Blaine than Springfield, and it would be in order for the Backeyes to send delegates to represent the club at the reception.

THE FLOWER MISSION. The regular weekly meeting of that acething of a disappointment this ing, owing to the failure of anyone to con tribute flowers. There were almost noneonly enough to make two or three bouquets. This was distinctly disappointing to the Mission, as the number of invalids whom it was hoped to supply today was unusually large, and it was desired, in addition, to send a good many flowers to the city hospital.

It would be an excellent thing for the public to remember Flower Mission day—every Thursday at 10 a. m.—and leave or

outline to remember Flower Mission day— every Thursday at 10 a.m.—and leave or send what flowers they can spare to Room No. 4. Black's opera house. It is a little matter, but its aggregate of pleasure to the sick cannot be overestimated.

The following excellent and business-like report will be of interest:

GRAND ARMY ENCAMPMENT. General Order Kelative to Formation of Jo eph W. O'Neall, department con mander of Obio, has issued a general giving explicit instructions as to the for mation of regiments, companies, etc. who are to participate in the grand parade during the national encampment at Colum-bus. Posts are first to organize into regi-ments, subdivided into companies of forty-eight men each, or three of sixteen men. It is most likely that the column will pass the grand stand in review marching in platoons of sixteen, or in piatoons of eight marching at half distance. No company should have less than this are to participate in the grand parade

nish itself with small lags of various de-signs and colors as markers, to be carried on each flank of the platoon, serving as guides in marching and very materially adding to the appearance of the column. These flags should be of bunting or silk, should be 18x30 and mounted on flag staffs These flags should be of bunting or allk, should be 18x30 and mounted on flag staff five feet long, and should have printed on them "Dept. of Ohio G.
